# LEGAL DISCLAIMER

It is important that you carefully read this legal disclaimer section. If you have any doubts, seek legal, financial, tax, or other competent law professionals' guidance. All of the information shown here is not intended to be exhaustive, and it should never be construed as part of any formal agreement.

We are confident that the material in this white paper is correct and current, and that all products, services, technical architecture, token distribution, and corporate schedules are correct and current. Furthermore, all of this information may have been modified without notice, and it should never be construed as a binding advising agreement.

## No Advice:

Nobody is obligated by this white paper to sign a contract or make a legally enforceable commitment to donate. There is no advice in this white paper, and it cannot be used to sell or solicit Trillions' purchase of our token, nor can it be used to construct a contract or make an investment decision.

## Compliance with Tax Obligations:

If any taxes apply to their transactions, the users of the Website are solely responsible for ascertaining this. Who pays what taxes is not the responsibility of the website's owners or authors.

## Limitation of liability:

For any loss or harm originating from the use of this website's material, including written material, links to third-party sites, and data such as quotes and charts as well as buy/sell signals SolMan will not be held responsible for any damages. Understand the risks and costs associated with trading assets on the financial market (digital or otherwise). ICOs, in particular, are one of the riskiest investment choices available to investors. Chances are you'll lose everything you've invested.

## Investment risks:

Because of the high level of risk, cryptocurrency trading is not suitable for all investors. Before trading cryptocurrencies, tokens, or any other digital asset, you should carefully examine your investment goals, level of experience, and risk appetite.

# INTRODUCTION

The cryptocurrency space has witnessed exponential growth, with meme coins playing a significant role in community-driven value creation. Solman Token (SOLMAN) is more than just a meme—it is a symbol of unity, transparency, and fun on the Solana blockchain. It taps into internet culture to build a project that's both humorous and purpose-driven, leveraging blockchain to bring people together with a shared goal: creating value through community collaboration.

Born from the ethos of decentralization and the power of memes, Solman Token blends entertainment with cutting-edge blockchain technology to form a light-hearted, yet serious initiative. This project isn't here to ride a fleeting trend—it's here to stay, evolve, and grow with its community.

# VISION

Our vision is to build the most engaging and transparent meme coin community on the Solana blockchain. Solman Token aspires to:

- Foster an inclusive and engaging crypto ecosystem.
- Empower users through decentralized governance and community-led development.
- Educate newcomers while promoting responsible and ethical participation in the crypto space.
- Make memes meaningful by tying them to real utility, not just market speculation.

Solman is not just about laughs; it's about lasting impact through community power.

# WHY SOLMAN?

Solman isn't just another meme coin jumping on the hype train. It represents a new wave of community-led projects that blend fun with foundational integrity.

Here's why Solman stands out:

**Built on Solana:** Ultra-fast transactions, low fees, and scalability make Solana the ideal home for a truly usable meme token.

**Community-First Ethos:** Every feature, roadmap item, and decision is crafted with the community's voice at its core.

**Real Utility:** From NFTs to staking and tipping, SOLMAN is designed to be used—not just held.

**Anti-Rug Infrastructure:** Locked liquidity, multisig wallets, and open-source transparency protect our holders.

**Meme Culture with Purpose:** Solman celebrates meme culture while creating a real, sustainable ecosystem around it.

In a sea of copy-paste meme tokens, Solman delivers value, vision, and verified commitment.

# ABOUT FOUNDER

Solman Token is the brainchild of a solo creator—no venture capital, no big marketing team, and no insider allocations. Just one person with a deep passion for crypto, fed up with rug pulls, pump-and-dump schemes, and fake communities.

After years of watching projects betray the trust of retail investors, the founder of Solman decided to build something radically transparent, fair, and truly community-driven. The mission is simple: create a meme coin that values honesty, builds real utility, and becomes a space where people can laugh, earn, and belong.

Every line of code, every post, and every campaign begins with the same question: "How can this benefit the community?"

Solman isn't here to imitate—it's here to redefine what meme coins can be.

# UTILITY & USE CASES

Solman Token is more than a meme—it's a multifunctional asset. Planned use cases include:

**Play-to-Earn:** Earn SOLMAN tokens through the SolMan Runner game. Each month, the top 5-10 players on the leaderboard will be rewarded.

**Meme-to-Earn (Monthly):** Join our monthly meme contest. Create, share, and win — the top meme earns a token prize!

**Discord Role Utility:** HODLers can verify wallet holdings to unlock exclusive Discord roles and private community channels.

**Lore Voting:** Have a say in the SolMan universe! Token holders can vote on story decisions, NFT themes, and character development.

**Merch Access:** Verified HODLers get exclusive access to limited merch drops — wear the mission As we grow, so will the token's utility across Web3 and real-world integrations.

# SAY NO TO RUG PULL

Trust is the foundation of any crypto project. Solman Token stands firmly against the destructive practice of rug pulls. Our safeguards include:

**Locked Liquidity:** Core liquidity will be locked using decentralized solutions for a predefined period.

**Multi-Signature Treasury Wallets:** Major transactions require consensus from a multi-signature team.

**No Hidden Dev Wallets:** All token allocations are public and trackable.

**Transparent Code:** All contracts will be open-sourced and audited when applicable.

We commit to full transparency and invite the community to verify all smart contract activity on-chain.

# TOKENOMICS

# CONCLUSION

Solman Token represents a new kind of meme coin—one rooted in transparency, fairness, and fun. Built on the Solana blockchain for speed and affordability, SOLMAN aims to create lasting value through community engagement, real utility, and unwavering integrity.

There are no shortcuts here—no VC backing, no paid influencers hiding bags. Just a single creator, a clear vision, and a community that believes in something better. From fair tokenomics to open governance and anti-rug safeguards, every piece of this project is designed to protect and empower its holders. This isn't just a token. It's a movement. A meme-powered, community-fueled rebellion against the status quo.

Welcome to Solman. The fair meme coin you deserve.
